WHEELCHAIR REPAIR & MAINTENANCE		

PURPOSE: To describe the procedure for manual wheelchair repair and maintenance.

POLICY: Offenders that are assigned to the Assistive Disability Services program (ADS) and require permanent or extended use of a wheelchair will be provided scheduled wheelchair repair/maintenance to assure the safety of wheelchair usage.

PROCEDURE:

- I. ADS offenders who are identified as wheelchair users will be scheduled by the ADS wheel chair technician every six months for a thorough inspection and service of their assigned wheelchair. They will also be instructed on how to care for and clean their wheelchairs.
- II. ADS offenders that require wheelchair repair in between their scheduled inspection will advise their ADS caseworker during their case management interview or by sending their assigned ADS caseworker an I-60. The ADS wheelchair technician will provide wheelchair repair service within 10 working days after receiving the request.
- III. ADS offenders that require emergency wheelchair repairs (broken wheelchair frame, torn seat, etc.) may contact unit medical staff which in turn, will contact the ADS department at (936) 291-4200 ext 3867.
