

# **Correctional Managed Health Care**

## **Monthly Report**

**January 2013**

**September 2012 – January 2013**

## **Summary**

Beginning with Fiscal Year 2006, the Correctional Managed Health Care Committee (CMHCC) has initiated the distribution of a monthly financial summary report. The purpose of this report is to provide updated and accurate information on the costs of the correctional health care program. This monthly report summarizes activity for the month of January 2013. Following this narrative are the supporting financial and statistical tables.

## ***Background***

During Fiscal Year 2013, approximately \$429.0 million within the TDCJ appropriation has been allocated for funding correctional health care services. This funding included:

- \$135.3M in general revenue appropriations in strategy C.1.8 (Hospital and Clinic Care)
- \$242.2M in general revenue appropriations in strategy C.1.7 (Unit and Psychiatric Care).
- \$51.5M in general revenue appropriations in strategy C.1.9 (Pharmacy Care).

Of this funding, \$428.5M (99.9%) was allocated for health care services provided by UTMB and TTUHSC. And \$474K (0.1%) was allocated for funding of the operation of the Correctional Managed Health Care Committee.

These payments are made directly to the university providers according to their contracts. Benefit reimbursement amounts and expenditures are included in the reported totals provided by the universities.

## ***Report Highlights***

### **Population Indicators**

- Through January this fiscal year, the correctional health care program has decreased in the overall offender population served. The average daily population served through January of FY 2013 was 148,979. This average was lower than the average through January FY 2012 of 153,100, a decrease of 4,121 or (2.69%). Even though the overall population has decreased, the number of offenders age 55 and over has continued to steadily increase year over year.
- Consistent with the trend for the last several years, the number of offenders in the service population aged 55 or older has continued to rise at a faster rate than the overall population. Through January of FY 2013, the average number of older offenders in the service population was 13,979. Through this same month a year ago (FY 2012), the average number of offenders age 55 and over was 13,499. This represents an increase of 480 or about 3.6% more older offenders than a year ago.
- Hospital Inpatient Census is a new statistical indicator established to reflect the health care dollars spent in the C.1.8 Strategy “Hospital and Clinic Costs”. The hospital inpatient average daily census (ADC) served through January of FY 2013 was 215 for both the Texas Tech and UTMB Sectors.
- Outpatient Clinic and ER Visits is another new statistical indicator established to reflect the health care dollars spent in the C.1.8 Strategy “Hospital and Clinic Costs”. The medical outpatient clinic and ER visits served through January of FY 2013 was 4,819 for both the Texas Tech and UTMB Sectors.
- The overall HIV+ population has remained relatively stable throughout the last several years and continued to remain so through this month, averaging 2,229 (or about 1.5% of the population served).
- Two mental health caseload measures have also remained relatively stable:
  - The average number of psychiatric inpatients within the system was 1,725 through January of FY 2013, a 103 population decrease from 1,828 through January of FY 2012.
  - Through the month of January FY 2013, the average number of mental health outpatients was 18,589 representing 12.5% of the service population.

## **Health Care Costs**

- Overall health costs through January of FY 2013 totaled \$208.4M.
  - UTMB's total revenue through the month was \$158.9M. Their expenditures totaled \$168.2M, resulting in a net shortfall of \$9.3M. On a per offender per day basis, UTMB earned \$8.80 in revenue and expended \$9.32 resulting in a loss of \$0.52 per offender per day.
  - TTUHSC's total revenue through the month was \$41.1M. Expenditures totaled \$40.1M, resulting in a net gain of \$1.0M. On a per offender per day basis, TTUHSC earned \$8.68 in revenue, but expended \$8.47 resulting in a gain of \$0.21 per offender per day.
- Examining the health care costs in further detail indicates that of the \$208.4M in expenses reported through January 2013:
  - Onsite services (those medical services provided at the prison units) comprised \$95.7M representing about 46.0% of the total health care expenses:
  - Pharmacy services totaled \$19.7M representing approximately 9.4% of the total expenses:
  - Offsite services (services including hospitalization and specialty clinic care) accounted for \$69.6M or 33.4% of total expenses:
  - Mental health services totaled \$17.7M or 8.5% of the total costs:
  - Indirect support expenses accounted for \$5.7M and represented 2.7% of the total costs.

The total cost per offender per day for all health care services statewide through January of FY 2013 was \$9.14, an increase of 4.6% from \$8.74 for January FY 2012. However, when benchmarked against the average cost per offender per day for the prior four fiscal years of \$9.51, the decrease is lower at 3.9%.

- For UTMB, the cost per offender per day was \$9.32, lower than the average cost per day for the last four fiscal years of \$9.60.
- For TTUHSC, the cost per offender per day was \$8.47, lower than the average cost per day for the last four fiscal years of \$9.20.
- Differences in cost between UTMB and TTUHSC relate to the differences in mission, population assigned and the acuity level of the offender patients served.

### ***Reporting of Fund Balances***

- A review of fund balances for FY 2013 indicates that UTMB reports a total shortfall of \$9,310,079 through the month of January 2013. TTUHSC reports a total gain of \$1,021,303 through the month of January 2013.
- A summary analysis of the ending balances, revenue and payments through January FY 2013 for all CMHCC accounts is also included in this report. That summary indicates that the net balance on all accounts held by the CMHCC on January 31, 2013 was \$<10,782.23>. This is due to the posting of \$79,991.45 for FY 2012 ending excess fund balance that has lapsed back to the TDCJ Strategy C.1.7 Correctional Healthcare funding source.

### ***Financial Monitoring***

Detailed transaction level data from both providers is being tested on a monthly basis to verify reasonableness, accuracy, and compliance with policies and procedures. Due to a delay in receiving UTMB's and TTUHSC's financial reports, review and testing of the January 2013 financial information is currently in process and final results are not yet available. Upon completion of January's review, the results will be reported in the 2<sup>nd</sup> Quarter Financial Report for FY 2013.

## **Concluding Notes**

- The combined *operating shortfall* for the university providers through January of FY 2013 is \$8,288,776. The university providers are continuing to monitor their expenditures closely, while seeking additional opportunities to reduce costs in order to minimize any future operating losses.
