The PREA Audit of the Mountain View Unit/Hilltop Unit, Texas Department of Criminal Justice (TDCJ), was conducted on September 14-16, 2016, by United States Department of Justice Certified PREA Auditors Marc L. Coudriet, Lead Auditor and Darren Bryant, Certified PREA Auditor. Prior to the audit, the Mountain View Unit provided the lead auditor with appropriate policies, procedures and facility documentation related to the standards for review. Both units house female inmates, Hilltop houses female youthful offenders and manages a Trustee Camp approximately ¼ mile from the Unit's main entrance. No male inmates are housed at the Mountain View/Hilltop Units. The audit was coordinated through the American Correctional Association, Alexandria, Virginia. An entrance briefing was conducted at 8:00 AM in Senior Warden Kazmierczak's conference room at the Mountain View Unit, the following personnel were in attendance with the auditors: Senior Warden Donna Kazmierczak; Assistant Warden Karen Stroleny; Major Elbert Holmes; Major Deborah Harris; Captain Acosta; Captain Bruton; Christel Rogers, Unit Safe Prisons/PREA Manager and Brandy Mouse, Regional SAFE Prisons/PREA Program Manager. The audit started with a tour of the Mountain View Unit immediately at the conclusion of the entrance briefing. The following staff accompanied the auditors on the tour: Senior Warden Donna Kazmierczak; Assistant Warden Karen Stroleny; Major Elbert Holmes; Captain Acosta; and Brandy Mouse, Regional SAFE Prisons/PREA Program Manager. All areas of the Mountain View and Hilltop Units were toured including, intake, all inmate housing units, restrictive housing, both medical areas, food service, education, law library, work areas and the recreation areas. The auditor team informally interviewed (10) staff and (6) inmates.

The PREA Resource Audit Instrument used for Adult Prisons and Jails was furnished by the National PREA Resource Center. To summarize, there are seven sections, A through G, comprised of the following: A) Pre-Audit Questionnaire; B) the Auditor Compliance Tool; C) Instructions for the PREA Audit Tour; D) the Interview Protocols; E) the Auditor's Summary Report; F) the Process Map; and G) the Checklist of Documentation.

Following the protocols of making contacts, and checking on the posting of notices (posting was initiated through the American Correctional Association (ACA) and the facility, Mountain View/Hilltop Units) the lead auditor reviewed each item on the Pre-Audit Questionnaire any additional material presented prior to, during and following the audit visit.

Dena Bell, Warden's Secretary and Brandy Mouse, Regional SAFE Prisons/PREA Program Manager provided the PREA standards files for review, these files were used to complete most of the information on the PREA Compliance Audit Instrument Checklist of Policies/Procedures and other documents in order to identify additional information that might be required during the site visit. Additional information of the Mountain View/Hilltop Units were provided in a booklet upon arrive to Gatesville, Texas.

The Texas Department of Criminal Justice contracted with ACA to conduct a PREA Audit of the Mountain View/Hilltop Units, September 14-16, 2016. On Tuesday, September 13, 2016 an introduction dinner was scheduled on the agenda with the aforementioned staff personnel.

The auditors stayed in Gatesville, Texas and were transported to the Mountain View/Hilltop Units daily by Brandy Mouse, Regional SAFE Prisons/PREA Program Manager. Standard 115.11 Zero tolerance of sexual abuse and sexual harassment; PREA Coordinator

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Executive Directive - 03.03, dated March 31, 2015, outlines the Texas Department of Criminal Justice (TDCJ) Zero Tolerance Policy and established the Safe Prisons/PREA Plan. The Safe Prisons/PREA Plan directs that each Warden appoint a Unit Safe Prisons/PREA Manager to coordinate the implementation of the Safe Prisons/PREA Plan at each facility. The Safe Prisons/PREA Plan also defines prohibited behavior regarding sexual abuse and sexual harassment. The TDCJ employs an upper level Agency Wide PREA Coordinator with sufficient time and authority to develop, implement and oversee the agency efforts to comply with the PREA Standards.

Standard 115.12 Contracting with other entities for the confinement of offenders

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

The Auditor has reviewed the contracts awarded by TDCJ; all are appropriate and are in compliance with PREA standards. The Mountain View/Hilltop Unit does not currently have any inmate being confined with other contracted entities.

Standard 115.13 Supervision and monitoring

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

This finding is based on a review of the Administrative Directive (AD) 11.52, Security Staffing, dated March 4, 2016, the Unit Staffing Plan, Staffing Rosters and Post Orders, staff interviews and observations the Mountain View/Hilltop Unit meets this standard.

TDCJ has developed and documented the staffing plans that provide adequate levels of staffing for the Mountain View/Hilltop Unit. When deviations occur, they are properly documented, justified and explained. This auditor reviewed shift rosters and deviations were properly noted.

TDCJ has completed the required annual review of the staffing plans in consultation with the Regional PREA Coordinator as required by standard 115.11, to assess, determine and document whether adjustments to the staffing plans are needed.

The Mountain View/Hilltop Unit has met this standard by providing overlapping fields of observation and eliminating all known "blind spots". They accomplished this through the use of roving patrols whose observation capabilities are enhanced with outstanding placement and usage of mirrors; which is further enhanced by keeping windows and see-through wall partitions unencumbered for a large field of observation throughout the Unit.

Standard 115.14 Youthful Offenders

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

The Hilltop Unit does house Youthful Offenders on the top floor of the housing area, which built into the design of the building, youthful offenders cannot see nor hear adult offenders in the housing areas below. In addition, the youthful offenders can enter and exit their housing under direct escort supervision via the staircase which prohibits the youthful offenders from viewing the adult housing areas below.

In the Hilltop Unit restrictive housing areas, the youthful offender is placed in single cells that are not in view of any adult offender, due to the design and construction of the building, if either offender yells loud enough, their voice can be heard echoing through some areas of the passage way. The lead auditor experienced this scenario and though the voice could be heard, this auditor could not understand what was being yelled, therefore, the intent of this standard has been met.

Mountain View Unit does not house youthful offenders.

Standard 115.15 Limits to cross-gender viewing and searches

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

This auditor has reviewed AD 03.22 Offender Searches; the Mountain View/Hilltop Unit does allow cross gender strip searches of female inmates by male staff only after obtaining a supervisor's authorization. The Cross Gender Search logs indicated there was one (1) cross gender searches performed at the Hilltop Unit in the past twelve months and Cross Gender Search logs indicated there were six (6) cross gender searches performed at the Mountain View Unit in the past twelve months. A review of post logbook entries and turn out rosters indicate the unannounced rounds are being made as required. TDCJ and Mountain View/Hilltop Units policy required male correctional staff to announce their presence in each housing area every time they enter the area. This policy requirement is posted on plaques that is affixed on all walls near doors entering the housing areas. In the housing units each housing area are identical in design and have identical shower stalls with a half curtain design and restroom areas with partitions that adequately block the view of people in the dayroom and walkways. The units have placed partitions in search areas outside of the housing areas to prevent viewing while conducting strip searches. Signs are placed on doors and door windows near the search areas alerting personnel not to enter the area during the strip search.

Standard 115.16 Offenders with disabilities and Offenders who are limited English proficient

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

This auditor reviewed AD -04.25, AD-06.25, Security Manual(SM)-05.50, Training Report and Roster of Spanish Interpreters and review of provided materials in making the determination of compliance. The Mountain View/Hilltop Unit provides both assistance to those who are hard of hearing and Spanish interpreters to those who do not speak English. The inmates interviewed included those who only spoke Spanish and appropriate interpreters were provided. The Mountain View/Hilltop Unit takes appropriate steps to ensure inmates with disabilities have an equal opportunity to participate in or benefit from all aspects of the Mountain View/Hilltop Unit's efforts to prevent, detect, and respond to sexual abuse and sexual harassment, including steps to provide interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. There have been no instances in the past twelve months of the Mountain View/Hilltop Unit using inmate interpreters to assist non English speaking inmates with PREA related issues. The Mountain View/Hilltop Unit does not have any deaf inmates in its current population.

Standard 115.17 Hiring and promotion decisions

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

This finding is based on a review of Executive Directive(ED) PD-71, PD-73, PD-75, and PD-27, a review of hiring applications, pre-hiring questionnaires and interviews with the Human Resource Manager. The Mountain View/Hilltop Units do not hire or promote anyone who may have contact with inmates, and do not enlist the services of any contractor who may have contact with inmates, who has engaged in sexual abuse in any criminal justice facility, has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion. The Mountain View/Hilltop Unit considers any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with inmates. The Mountain View/Hilltop Unit performs a criminal background records check before enlisting the services of any potential employee and contractor who may have contact with inmates. The TDCJ has established a flash notification process where if any staff member is apprehended by law enforcement and an NCIC check is conducted, the agency is immediately notified, as all staff fingerprints are on file.

Standard 115.18 Upgrades to facilities and technologies

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

The Hilltop Unit has last upgraded their video system after August 20, 2012. The Security Memorandum (SM) 1.14, dated Sept 9, 2015, Operating and Monitoring Video Surveillance Systems, requires the Unit Administrator to ensure video surveillance systems are used to protect offenders against assault, extortion, and sexual abuse in accordance with the TDCJ Safe Prisons/PREA Plan. This was considered in the upgrade of video equipment at the Hilltop Unit. The Mountain View Unit has not had an upgrade to facilities or technology since August 20, 2012, however, the Mountain View/Hilltop Units have effectively placed mirrors, see through wall partitions/windows and security staffing to enhance the monitoring and safety surveillance of inmates.

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

This auditor reviewed AD-16.03, Safe Prisons/PREA Operations Manual (SPPOM)-05.01 Sexual Abuse Checklist, Correctional Managed Health Care (CMHC) G57.1, Solicitation Letter, and Safe Prisons/PREA Operations Manual (SPPOM)-02.02 Sexual Annual Victim Reports; Medical personnel were also interviewed as well as the OIG Investigator. To the extent that the Mountain View/Hilltop Unit is responsible for investigating allegations of sexual abuse, they follow a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions.

Staff were knowledgeable of this procedure during interviews. The Mountain View/Hilltop Unit offers all victims of sexual abuse access to forensic medical examinations without financial cost, where evidentiary or medically appropriate. Such examinations are to be performed by Sexual Assault Forensic Examiner (SAFE) or Sexual Assault Nurse Examiner (SANE) where possible. In the event a sexual abuse incident, the offender will be taken to the nearest hospital that has medical staff qualified to perform forensic medical exams, which is the Baylor, Scott, and White Medical Center in Waco, Texas.

There have been no instances of forensic medical exams being conducted in the past twelve months. The Mountain View/Hilltop Unit makes available to the victim a victim advocate from employees trained as offender/victim representatives. Mental/emotional services are available on-site with licensed staff and via TELEMED services.

TDCJ had issued a solicitation letter to victim advocacy groups in Texas and has an MOU with Families in Crisis, Inc. for rape crisis services and support.

Standard 115.22 Policies to ensure referrals of allegations for investigations

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

This finding is based on a review of policy SPPOM-05.05 and SPPOM-05.01, and interviews with the Office of Inspector General (OIG) investigator. Unit staff conducts the initial incident investigation and OIG determines if it meets the requirements for a criminal investigation. If the incident is deemed to be a felony, then OIG takes over the investigations.

The Mountain View/Hilltop Units ensure that an administrative or criminal investigation is completed for all allegations of sexual abuse and sexual harassment. The Mountain View/Hilltop Units ensure that all allegations of employee wrongdoing are referred for investigation to the OIG.

The Mountain View/Hilltop Units have a policy that ensures allegations of sexual abuse or sexual harassment are referred for investigation and publishes such policy on its website.

The Mountain View/Hilltop Units document all such referrals.

Standard 115.31 Employee training

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

This auditor reviewed the following documents in making the above decision. The Safe Prisons/PREA Program training and education is performed in accordance with the Correctional Training and Staff Development lesson plan, the SPPOM-06, ED-12.10, AD-12.20, ED PD-97 and the Safe Prisons/PREA Plan. Employees interviewed were knowledgeable of their duties under the PREA program and all indicated that PREA is a reoccurring subject taught during turn out training on their shifts.

The following areas are covered in the PREA training received by staff: the TDCJ's zero tolerance policy on sexual abuse and sexual harassment; methods for fulfilling responsibilities under the TDCJ sexual abuse and sexual harassment prevention, detection, reporting, and response policies and procedures; the right of offenders to be free from sexual abuse and sexual harassment; the right of offenders and staff to be free from retaliation for reporting sexual abuse and sexual harassment; the characteristics of sexual abuse and sexual harassment in confinement; the common reactions of sexual abuse and sexual harassment victims; how to detect and respond to signs of threatened and actual sexual abuse; how to avoid inappropriate relationships with offenders; how to communicate effectively and professionally with offenders, including lesbian, gay, bisexual, transgender, intersex, or gender nonconforming offenders; how to comply with relevant laws related to mandatory reporting of sexual abuse to outside authorities; and the common characteristics of victims and predators, sometimes referred to as red flags.

All staff receives PREA training during in-service training annually. Staff acknowledge in writing they receive and understand the training.

Standard 115.32 Volunteer and contractor training

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Based on a review of the training curriculum, Volunteer Handbook, Safe Prisons/PREA Plan and Volunteer Acknowledgement forms, the volunteers and contractors at the Mountain View/Hilltop Units are receiving the required training on sexual assault and sexual harassment. The Mountain View/Hilltop Units ensure all volunteers and contractors who have contact with offenders have been trained regarding sexual abuse and sexual harassment prevention, detection, and response policies and procedures.

The Mountain View/Hilltop Units ensure all volunteers and contractors who have contact with offenders have been notified of the TDCJ's zero-tolerance policy regarding sexual abuse and sexual harassment and informed of the procedures for reporting incidents. The contractors and volunteers who were interviewed were aware of PREA and their duties and responsibilities. All contractors and volunteers had received initial PREA training during their initial training.

TDCJ requires volunteers to attend training at least every two years; The Mountain View/Hilltop Units have provided documentation of their currently active volunteers and contractors, proving they have met all aspects of this standard.

Standard 115.33 Offender Education

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

In making the above decision this auditor reviewed the TDCJ, Unit Classification Procedure Manual (UCPM) 5.0, dated June 2012, Safe Prisons/PREA Plan, CMHC Policy G-51.1, G-51.5, Administrative Directive (AD)-04.25, and AD-06.25. Inmate education is being delivered by the Mountain View/Hilltop Unit to all newly arriving inmates within the thirty days as required. Information on the Zero tolerance policy, how to report sexual abuse and sexual harassment is being provided during the initial intake process.

Inmates are receiving the required comprehensive PREA education within 30 days of intake; offenders are provided this comprehensive education either in person or through video regarding their rights to be free from sexual abuse and sexual harassment, to be free from retaliation for reporting such incidents, and regarding agency policies and procedures for responding to such incidents. PREA Posters are in the housing units, in all entry ways throughout the Units and the information is in the inmate handbook. Information is available in Spanish for those who do not understand English. The comprehensive education is reinforced during the Classification process where inmates are interviewed by Unit Safe Prison Personnel. Offenders are provided education in formats accessible to all offenders, including those who are limited English proficient, hard of hearing, visually impaired, or otherwise disabled, as well as to offenders who have limited reading skills. Inmates interviewed were aware of the TDCJ's Zero Tolerance policy and acknowledged they had received PREA training during orientation and at random times after orientation. The Mountain View/Hilltop Units do not currently have any deaf inmates in the population.

Standard 115.34 Specialized training: Investigations

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

This auditor reviewed Board Policy (BP)-01.07, Correctional Training & Staff Development (CTSD) Specialized Investigations, Office of the Inspector General (OIG) Lesson Plans 3201, OIG Operations Procedure Manual (OPM) -02.15 and related sign in sheets.

Specialized training included techniques for interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative action or prosecution referral. TDCJ maintains documentation that agency investigators have received and completed the training in conducting sexual abuse investigations.

This Specialized training was in addition to the mandatory training requirements for sexual assault investigations. OIG investigators receive in-service training that specifically relates to sexual assaults within confinement setting.

Standard 115.35 Specialized training: Medical and mental health care

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

This auditor has reviewed CMHC Policies C-19.1, C25.1 and C 57.1. Also reviewed was the Medical/Mental Health Training. The Mountain View/Hilltop Units have ensured that all fulltime and any part-time medical and dental health care practitioners who work regularly in its facilities have been trained in: how to detect and assess signs of sexual abuse and sexual harassment; how to preserve physical evidence of sexual abuse; how to respond effectively and professionally to victims of sexual abuse and sexual harassment; and how and to whom to report allegations or suspicions of sexual abuse and sexual harassment.

Appropriate documentation is maintained to show that medical and dental staff has received this training in addition to the training required for employees, contractors, and volunteers. The Mountain View/Hilltop Unit does not have mental health staff who works regularly at the Unit.

Mental health services are provided on-site licensed professional staff and by TELMED services after hours.

Standard 115.41 Screening for risk of victimization and abusiveness

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

The auditors reviewed the SPPOM-03.01, and the PREA Screening Assessment Instrument. Additionally, interviews with Classification staff and inmates, both formal and informal, were conducted. The initial screening considers prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse, as known to the TDCJ, in assessing offenders for risk of being sexually abusive.

An objective screening tool is used to record these initial assessments. The intake screening includes, at a minimum, the following criteria to assess offenders for risk of sexual victimization: any mental, physical, or developmental disability; the age of the offender; the physical build of the offender; previous incarceration; whether the criminal history is exclusively nonviolent; prior convictions for sex offenses against an adult or child; perception of the offender as gay, lesbian, bisexual, transgender, intersex, or gender nonconforming; previous sexual victimization; the offender's own perception of vulnerability. The inmate's age, physical stature and the information previously stated are used at the Mountain View/Hilltop Unit to ensure a safe and racially blended living environment.

Standard 115.42 Use of screening information

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

In making the above determination, this auditor has reviewed AD-04.17, Offender Housing Assignments, Ad-04.18, Offenders Job Assignments, Safe Prisons/PREA Plan, SPPOM-03.01 Special Population Review and inmate interviews.

Decisions are made on an individual case by case basis in determining the housing and job assignment of each offender. Offender are housed in such a manner so as to ensure, to the maximum extent possible, the safety, security and treatment needs of all offenders are being met, as well as to maintain the safety and security of the public, staff, and the unit/facility.

The Mountain View/Hilltop Units Classification Committee uses information from the risk assessment screening document to make housing, bed, work, education, and program assignments with the goal of separating offenders at high risk of being sexually victimized from offenders at high risk of being sexually abusive.

The requirement for semi-annual review of placement and programming assignments for transgender or intersex offender is outlined in the Safe Prison/PREA Plan. A transgender or intersex offender's views with respect to his or her own safety shall be given serious consideration. Offenders identified as transgender or intersex is being given the opportunity to shower and be strip searched separately from other offenders.

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

In making the above determination, this auditor has reviewed the SPPOM-05.05, Ad SEG Plan, I-169 Form and I-201, Guidelines for ASC Members, the Safe Prisons/PREA Plan, and interview with Unit Safe Prisons/PREA Manager.

At the Mountain View/Hilltop Units no inmates at high risk for sexual victimization will be placed in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers. If the Unit cannot conduct such an assessment immediately, the facility may hold the inmate in involuntary segregated housing for less than 24 hours while completing the assessment. Any inmates placed in segregated housing for this purpose will have access to programs, privileges, education, and work opportunities to the extent possible. - Does Not Meet Standard (requires corrective action)

In making the above decision, this auditor reviewed AD-02.15, AD 16.03, OIG Lesson Plan (OIG LP 3201) Sexual Assault Investigative Topics, OIG Operations Procedure Manual(OPM)-02.15, OPM-03.72, OP-04.05, and the Safe Prison/PREA Plan, The Mountain View/Hilltop Units conduct investigations promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports. Where sexual abuse is alleged, investigators who have received special training in sexual abuse investigations conduct these investigations.

Investigators gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; interview alleged victims, suspected perpetrators, and witnesses; and review prior complaints and reports of sexual abuse involving the suspected perpetrator. When the quality of evidence appears to support criminal prosecution, OIG conducts compelled interviews only after consulting with prosecutors.

The credibility of an alleged victim, suspect, or witness is assessed on an individual basis and is not determined by the person's status as inmate or staff. Neither the Mountain View/Hilltop Units nor TDCJ requires an inmate who alleges sexual abuse to submit to a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of such an allegation. Administrative investigations include efforts to determine whether staff actions or failures to act contributed to the abuse; and are documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings.

Criminal investigations are documented in a written report that contains a thorough description of physical, testimonial, and documentary evidence and attaches copies of all documentary evidence where feasible. Substantiated allegations of conduct that appears to be criminal are referred for prosecution.

The Mountain View/Hilltop Units retain all written reports for as long as the alleged abuser is incarcerated or employed by the agency, plus five years. The departure of the alleged abuser or victim from the employment or control of the agency does not provide a basis for terminating an investigation.

- Does Not Meet Standard (requires corrective action)

This decision was based on a review of AD-16.20, ED PD-13, PD-29 and PD-22. Sexual misconduct with an inmate is a level 1 violation under Texas PD-22, General Rules of Conduct and Disciplinary Action Guidelines for Employees and dismissal from employment is the recommended course of action for level 1 violations. All terminations for violations of the agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, are reported to law enforcement agencies, unless the activity was clearly not criminal, and to any relevant licensing bodies. In the past twelve months no staff members had been determined to violate the sexual abuse of inmates' policy of the TDCJ.

Standard 115.77 Corrective action for contractors and volunteers

- Exceeds Standard (substantially exceeds requirement of standard)

In making the above decision this auditor reviewed ED PD-29, Volunteer Services Plan, the Volunteer Training Facilitators Guide, the Safe Prisons/PREA Plan, volunteer and contractor training files, and interviews with volunteers and contractors. TDCJ Policy clearly states that any contractor or volunteer who engages in sexual abuse shall be prohibited from contact with offenders and shall be reported to applicable law enforcement agencies, unless the activity was clearly not criminal, and to relevant licensing bodies.

The Mountain View/Hilltop Units take appropriate remedial measures, and shall consider whether to prohibit further contact with offenders, in the case of any other violation of TDCJ sexual abuse or sexual harassment policies by a contractor or volunteer. Volunteers are prohibited from establishing or continuing in personal relationships with offenders, including engaging in, or attempting to engage in, any form of consensual sexual misconduct with offenders, including forcing or attempting to force offenders to participate in nonconsensual sexual misconduct. Standard 115.78 Disciplinary sanctions for Offenders

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

The above decision was based on a review of CMHC E-35.1, Overview of Sex Offender Treatment Program (SOTP)-01.01, Safe Prisons PREA Plan, and interview with the OIG investigator.

Inmates are subject to disciplinary sanctions pursuant to a formal disciplinary process following an administrative finding that the inmate engaged in inmate-on-inmate sexual abuse or following a criminal finding of guilt for inmate-on-inmate sexual abuse.

The sanctions are commensurate with the nature and circumstances of the abuse committed, the inmate's disciplinary history, and the sanctions imposed for comparable offenses by other inmates with similar histories. The disciplinary process considers whether an inmate's mental disabilities or mental illness contributed to his or her behavior when determining what type of sanction, if any, should be imposed.

A report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred does not constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation.

The Mountain View/Hilltop Units prohibit all sexual activity between inmates and may discipline inmates for such activity.

Standard 115.81 Medical and mental health screenings; history of sexual abuse

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

In making this determination the auditors reviewed the Safe Prison/PREA Plan, CMHC A-09.01, H-61.1, I-70.1, Policies E-35.1, 35.2, G-57, a review of intake medical intake documentation well as interviews with intake and medical staff.

If the screening indicates an offender has experienced prior sexual victimization, whether it occurred in an institutional setting or in the community, staff ensured the offender was offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening.

Any information related to sexual victimization or abusiveness that occurred in an institutional setting is strictly limited to medical and external mental health practitioners and other staff, as necessary, to inform treatment plans and security and management decisions, including housing, bed, work, education, and program assignments, or as otherwise required by Federal, State, or local law. Medical and mental health practitioners obtain informed consent from inmates before reporting information about prior sexual victimization that did not occur in an institutional setting.

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

The above decision was based on a review of CMHC A-01.1, CMHC G-57.1, SPPOM-05.01 and audit interviews with medical staff. Inmate victims of sexual abuse receive timely, unimpeded access to emergency medical treatment and crisis intervention services, the nature and scope of which are determined by medical and external mental health practitioners according to their professional judgment. If no qualified medical practitioners are on duty at the time a report of recent abuse is made, security staff first responders take preliminary steps to protect the victim and are immediately notify the appropriate medical and external mental health practitioners. Inmate victims of sexual abuse while incarcerated are offered timely information about and timely access to emergency contraception and sexually transmitted infections prophylaxis, in accordance with professionally accepted standards of care, where medically appropriate. Treatment services are provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.

The Mountain View/Hilltop Unit's review team includes upper-level management, with input from line supervisors, investigators, and medical or external mental health practitioners. The Mountain View/Hilltop Units implement recommendations that result from these reviews, or documents the reasons why they don't implement the recommendations.

The PREA Ombudsman maintains, reviews, and collects data as needed from all available incident-based documents, including reports, investigation files, and sexual abuse incident reviews. TDCJ also obtains incident-based and aggregated data from every private facility with which it contracts for the confinement of its inmates.

Standard 115.88 Data review for corrective action

- Exceeds Standard (substantially exceeds requirement of standard)

In accordance with PREA National Standard §115.88, the report includes: areas identified by facilities as needing corrective action; a summary of the corrective action taken for each facility where corrective action needed has been identified; a comparison of the current years' data and corrective actions with those from prior years, and an assessment of TDCJ's progress in addressing sexual abuse.
