Priority Populations of Customers	In an effort to manage the number of customers contacted and to limit the frequency and degree of customer information gathering, selection of a priority population was chosen as means to assess customer satisfaction for this survey. Because the surveys were to be distributed throughout the entire state of Texas, a decision was made to poll district attorneys, sheriffs, parole attorneys and offender advocate groups / organizations.		
Description of Information-Gathering Methods	The written survey method was used to gather information related to customer service satisfaction. In an effort to minimize some of the cost of our data gathering methods and maximize customer ease in providing responses, the survey was emailed to prospective respondents. Upon completion to the online entry, all electronically submitted survey's were reviewed by the board administrator and entered into a PC database. Digital copies of the surveys were retained for future reference.		
Summary Description of Survey	The on-line survey instrument was patterned after specific LBB instructions. The survey assessed customer satisfaction in the areas of facilities, staff, communications, internet site, and complaint handling process.		
Customer Groups Excluded	As directed by the Legislative Budget Board and Governor's Office of Budget, Planning and Policy, the following group of customers were excluded from the survey: BPP Employee's.		
Data Collection Time Frame	The survey instrument was sent to a random sampling of the prospective focus groups respondents on May 27, 2022.
