## Overview

Texas Health and Safety Code, Section §614.021, identifies the Texas Department of Criminal Justice's (TDCJ) Texas Correctional Office on Offenders with Medical and Mental Impairments (TCOOMMI) as the party responsible for case management functions to assist wrongfully imprisoned persons discharging from the TDCJ. The agency is required to annually report on the provision of services under this statute.

## About TCOOMMI

In 1987, the 70th Texas Legislature created the TCOOMMI to address health services for the growing population of persons with mental impairments who are associated with the criminal justice system.

The TCOOMMI's functions were expanded in 1993 by the 73rd Texas Legislature to include inmates who are elderly, significantly ill, or have physical disabilities.

As a result of legislation enacted by the 84th Texas Legislature, in 2015 the TCOOMMI was able to expand mental health services to further meet the needs of those individuals with a severe and persistent mental illness.

The TCOOMMI's collaborative efforts on behalf of these populations are designed to identify cost-effective and programmatically beneficial alternatives to incarceration.

The TCOOMMI's mission is to provide a formal structure for criminal justice entities, health and human services providers, and other affected organizations to communicate and coordinate on policy, legislative, and programmatic issues affecting justice involved individuals with special needs.

## TCOOMMI Advisory Committee

The TCOOMMI Advisory Committee membership is composed of 28 diverse members representing criminal justice, health and human services, policy, regulatory, and advocacy fields.

As a collective body, the membership addresses procedural, programmatic, statutory, or administrative issues affecting justice involved individuals with special needs.

As part of their duties, advisory committee members:

- promote and support the legislative mandates assigned to the committee in Chapter 614 of the Health and Safety Code;
- attend and actively participate in regularly scheduled committee meetings; and
- serve as a liaison between the TCOOMMI and their agency or association.

Committee members provide technical assistance to the advisory committee on their field of expertise, while promoting and disseminating information about advisory committee activities to persons or organizations who would benefit from the knowledge.

Additionally, the TCOOMMI Advisory Committee receives quarterly updates on activities and implementation plans related to Memorandums of Understanding (MOUs) and cross-agency coordination to assess progress and barriers faced by agencies in the continuity of care process.

## Gubernatorial Appointees
